

**KATHKIN
LIFESCIENCES**
HEALTHIER TOGETHER

ABOUT US

Welcome to Kathkin Lifesciences, where we bridge therapy gaps with innovative treatments. Our mission is to improve lives by addressing unmet medical needs and making healthcare accessible and affordable for all.

OUR PURPOSE

We strive to revolutionize the medicine market by prioritizing quality over numbers, working tirelessly to ensure universal access to healthcare.

STRENGTHS AND LEADERSHIP

With over 40 years of legacy from our founders, Mr. Rakesh Kumar and Mr. Bimal Kath, Kathkin has firmly established itself in India's branded drug market. Dr. Harit Kath and Mr. Himanshu Kath now carry forward this legacy with youthful youthful energy and vision, blending tradition and innovation to propel Kathkin to new heights.

Wherever the art of medicine is loved,
there is also a love of humanity.

- **Hippocrates**

COMPANY VALUE

At Kathkin Lifesciences, we are driven by core values that define our mission in healthcare. We excel in developing advanced pharmaceutical solutions to address unmet medical needs, delivering uncompromising quality for better patient outcomes.

We Provide High Quality Products

Quality is at the heart of Kathkin Lifesciences. We ensure safety, efficacy, and reliability by crafting products with precision and following stringent quality control standards using advanced technologies.

Driving Change in Healthcare

At Kathkin Lifesciences, we are dedicated to bridging therapy gaps and ensuring quality healthcare is accessible to everyone, regardless of boundaries, making a meaningful impact in the healthcare sector.

We aim to transform healthcare by providing innovative treatments, ensuring universal access to quality medicines for all.

QUALITY CONTROL

At Kathkin Lifesciences, quality control is the core of our operations, ensuring that all products meet the highest standards of safety, efficacy, and purity. Our QC team closely monitors every production stage, from raw material sourcing to final packaging. Using advanced testing machinery and pharmacopeia methods like USP, BP, and EP, we ensure accuracy and consistency.

Stringent Protocols

Emphasizing the strict testing methods and pharmacopeia standards (USP, BP, EP) to ensure product quality

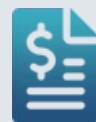

Advanced Technology

Using advanced equipment and automation to minimize contamination and improve efficiency.

Comprehensive Compliance

Continuous monitoring of raw materials, production, and finished goods to ensure regulatory compliance.

Environmental & Safety Measures

Ensuring strict environmental controls and staff safety in the manufacturing facility.

OUR CAPABILITIES

At Kathkin Lifesciences, we deliver high - quality pharmaceuticals, nutraceuticals, tablets and hard shell capsules, crafted with premium raw materials, advanced manufacturing processes, and stringent quality controls to meet global standards.

State of the Art Facilities

Our GMP and GLP-certified facilities ensure precision, consistency, and global compliance for top-quality products.

Comprehensive R&D

We specialize in formulation development, process optimization, and technology transfer for the healthcare industry.

Quality Assurance

We ensure strict quality standards from raw material testing to finished product validation, including ICH-compliant stability studies and method validation.

Custom Packaging

We provide automated primary and secondary packaging, including blister packs, jars, and bulk formats, to suit various client needs.

Excellence in healthcare stems from precision, innovation, and commitment to quality—values we uphold in every product and service.
